Short Description

Raveon

The RV-Z50 certified 3G cellular modem is a small, low-power OEM radio modem for data communication over your choice of cellular networks.

Description

The RV-Z50 certified 3G cellular modem is a small, low-power OEM radio modem for data communication over your choice of cellular networks. Low-cost data plans from Verizon, AT&T and T-Mobile make the Z50 an economical, secure, and reliable data communication link. It is also compatible with Raveon's Tech Series enclosure with flexible I/O options, and our DART Master Gateway for managing and securing your data.

Cellular carrier supported with the Z50:

- AT&T
- T-Mobile
- Verizon
